Program Outcomes of Philosophy

PROGRAMME OUTCOME OF PHILOSOPHY

A student of Post Graduation in Philosophy comes to know the ideas of various contemporary thinkers: Indian as well as Western. This improves their critical thinking and reasoning ability and enhances their logical thinking process. They are able to analyse and solve various problems of social and religious implications in an unprejudiced manner because philosophy as a discipline broadens their perspective on life and teaches them to distinguish knowledge from personal belief.

Incorporation of courses related to Gandhian philosophy provides The Scholars an understanding about the spiritual dimensions of human life and correlates the most basic principles of life such as truth, non-violence, justice, equality, in relation to the contemporary social structure.

Applied philosophy enhances their perspective and thinking regarding Gender, Social Justice, Animal-right, Feminism, Cloning and also inculcate an understanding of the business and professional ethics that forms the basis of the personality. Furthermore, a scholar of philosophy is also able to handle environment related problems in a holistic manner, keeping in view not only the physical but also the humanitarian and spiritual aspects of the subjects involved.

To summarise, it may be stated that philosophy improves critical thinking and reasoning of the students. They learn about logical analysis, morality, awareness, self-realisation, true meaning of existence, adaptability, communication and develop a patience hearing skill.

These skills gained during pursuing Post-graduation are very helpful for their career. To earn their living, they may be employed in various spheres such as education, public-relation, marketing, social-services, journalism, public-policy expert, as an entrepreneur with philosophical thinking, which is the need of the hour for the upliftment of the present day society and inculcate moral values and the fundamental universally acclaimed principles of the humanity.
