Program Outcomes of ABST

Programme Outcomes:ABST

- Post-graduate Program in ABST is ideal for candidates who wish to make a career in banking, financial services and insurance (BFSI) as well as for accounting and commerce sectors.
- The two-year course delves deeper into the functioning of the economy, capital, revenue, trade, taxes, etc. taught in the Graduation Programme.
- Banks, Economic Consulting Jobs, Various Corporate Sectors, Educational Institutes, Research Associates with Economic Consulting Firms, Import/Export Companies, Indian Civil Services, Finance, Commerce & the Banking Sectors, Insurance Industry, Customs Department, Indian Statistical Services, Indian Economic Services are the employment specific areas for the students who opts for the Masters Programme in the subject.
- Since M.Com. is a specialized sphere of knowledge in itself, only those candidates who have pursued B.Com. or B.Com. (Honours), can pursue it. M.Com. is also a good option for CA/CS candidates.

Programme Specific Outcomes:

- Management Accounting and Financial control is taught to develop an understanding of the conceptual framework of Management Accounting as well as to provide the knowledge of the Management Accounting Techniques in business decision making.

- Higher Accounting is the third paper which imparts knowledge of a theoretical foundation for the preparation and presentation of financial statements. It also inculcates the understanding of rules of measurement and reporting relating to various types of business entities.
- In Security analysis and Portfolio management the students are familiarised with the functioning of securities markets. An in-depth insight into the Indian stock exchanges and how to protect the investors through credit rating and establishing appropriate investment objectives, developing optimal portfolio strategies, estimating risk-return tradeoffs, evaluating investment performance and portfolio revision techniques are other points covered in this paper.
- The purpose of OR and QT is to provide an introduction to both basic and advanced analytical tools of OR and QT.
- Direct Tax and Indirect Tax and Tax planning is added to provide understanding of Direct Taxes and to learn the rules and their applications to different business situation. These papers make aware about the principles underlying the Goods and Service Tax and Customs Duty.
- In Research Methodology the students become aware of the areas of Business Research Activities. It also enhances the capabilities of students to conduct the research in the field of social sciences and business.
- Management and Operational Audit imparts knowledge and develop understanding of methods of audit in specialized areas.
